Latest dispatches indicate that
Warsaw is still in possession of
the Russians, but its evacuation is
expected at any moment. Speaking at
the opening of the Russian Duma today,
the Minister of War admitted the
Teutons' enveloping movement in the
military district of the Polish capital,
and declared: "We shall today per-
haps give up Warsaw, as in 1812 we
gave up Moscow, in order to issue
with final victory."

There has been no important fight-
ing on the Gallipoli peninsula for the

U. S. Ambassador Page has cabled
from London that he is investigating
the report that three Americans were
killed and three wounded when the
British steamer Iberian was sunk by
a German submarine last week.

Many Russians Taken.

Reviewing the first year of the war
the Overseas News Agency of Berlin
says that more than 3,000,000 Rus-
sians and approximately 8,000 Rus-
sian guns and 3,000 machine guns
have been captured by the Austro-
Germans.

Mitau, the capital of the Russian
province of Courland, 29 miles from
Riga, has been occupied by the Ger-
man, Berlin states. The situation be-
fore Warsaw is unchanged.

Many Austrians Lost.

A Geneva dispatch says that terri-
ble fighting is in progress northwest
of Warsaw, the Russian fighting
heavy rearguard actions. It is esti-

AMERICAN NOTE.

Washington, Aug. 2.—The first re-
sponse to the last American note to
Germany on submarine warfare is a
request from the German admiralty
that the national colors on American
vessels be painted large enough to be
seen at a distance. It is said that
many are now too small. Officials
here are apparently gratified at the
indication that Germany wishes to
avoid attacking American ships.

Red Cross Reports Awful Con-

(Associated Press)
Washington, Aug. 2.—The re-oc-
cupation of Mexico City by the Carran-
za army under Gen. Gonzales was con-
firmed by U. S. Consul Silliman of
Vera Cruz. It is expected Carranza
will move his entire government to
Mexico City during this month.
The Red Cross reports many cases
of death and collapse from starvation
in Mexico City; some people eating
weeds, grass and mules and horses
that had died.

El Paso, Tex., Aug. 2.—All foreign
merchants are being driven out of
Mexico territory controlled by Gen-
eral Francisco Villa and all native
merchants were being thrown into
jail.

The official explanation of Villa's
action is that the merchants have
been so increasing the prices on the
poor that thousands were starving,
particularly in the City of Chihuahua.
Friends of the merchants assert that
they refused to loan more money to
Villa with which to carry on his fail-
ing rebellion and that, incensed, he
is taking reprisal. They also say the
merchants are selling as cheaply as
possible.

UNCLE SAM SUES FRANKLIN CONCERN

D. B. SENDER CO. CHARGED
WITH VIOLATION OF PURE
DRUGS ACT.

PATENT MEDICINE IS ATTACKED

Freeport Journal Standard—Chas.
F. Clynne, United States district at-
torney, of Chicago, has filed a suit in
the Federal court in this city entitled
the United States vs. R. W. Senger
and F. H. Senger, doing business un-
der the firm name of D. B. Senger
Co. of Franklin Grove, Ill. The differ-
ent counts in the bill of declaration
allege that the firm violated an act
of congress June 3, 1906, known as
the Pure Food and Drug act. It is
claimed that the cartons and bot-
tles were misbranded and were
falsely represented to the people. It
is also claimed that the common car-
riers of the United States were used
to ship such articles.

The bill consists of three counts
and that the goods shipped contain-
ed an article intended to be and used
for the cure, prevention and mitiga-
tion of diseases of man. It is further
claimed that the goods were mis-
branded within the meaning of the
law.

The report of Robert Young, a
United States chemist, was appended
to the bill in which it is claimed that
he had made an analysis of the rem-
edy.

The medicine in question is known
as Dr. Whithman's Balm of Life and
is shipped to practically all points of
the United States.

Dixon.—The above story is of es-
pecial interest to Dixon people in that
F. H. Senger, the junior member of
the firm, married Miss Stella Bach-
man, formerly of this city.

FATAL ACCIDENT AT CONEY ISLAND RESULTS IN CLOSER SUPERVISION OF SCENIC RAILWAYS

WRECKED CONEY ISLAND COASTER

Following the accident at which three persons were killed and several others injured when a scenic car of the
rough riders concession at the Bowery and Jones' walk, Coney Island, jumped the track forty feet in the air, tipped
over and sent most of its occupants hurtling down on the heads of pleasure seekers in the street there was a closer
supervision of the concessions at the island. In order to provide thrills for the great army of visitors at the big
pleasure resort some of the concessionaries are said to have exceeded the speed limit. In the accompanying illus-
tration is shown the wrecked car just after the accident.

Predicts That Coming Political Bat-

(Associated Press)
Mt. Pleasant, Ia., Aug. 1.—Victor
Murdock of Kansas, chairman of the
progressive national committee,
made the following statement today:
"I have just completed a three
months' personal canvas of the situ-
ation with the progressives in the
Central west and on the Pacific
coast, and after making it I am
ready to say flatfootedly that we pro-
gressives are going into the 1916
fight as a party and to win."

"Moreover, a meeting of repre-
sentative progressives held this month
in New York city reported the same
conditions in the east that I have
found in the west, and they are lin-
ing up for the next battle. This
also is the sentiment of the progres-
sive national committee. We will
hold our national convention early
and nominate a ticket."

Battle Over Platforms

"The great convention battles of
1916 will not be over candidacies,
but will be over platforms. The
storm will rage, not in the committee
on credentials, but in the committee
on resolutions. The bourbon repub-
lican leadership will not only insist
on a standpoint credit, but will fight
for an unstinted and unequivocal in-
dorsement of the administration of

ASSEMBLY PROGRAM PROVING OF DECIDED INTEREST AND MERIT

SUNDAY'S CROWDS WERE LARGE
AND ALL EXPRESSED GREAT
SATISFACTION

HON. L. R. ROBINSON HERE TODAY

Great Student of Political Economy
Discussed National
Questions

Blue Monday, as far as the Rock
River Assembly is concerned, was not
so blue after all, for the day in As-
sembly park was a splendid one; sun
shine and the songs of many birds
made everyone there cheerful and
happy, feeling that everything is
going well with the institution on
Rock river.
A well balanced program, music
and speaking, aided in the entertain-
ment of the many who gathered to
visit and be entertained at Assembly
park. The concert by Ye Old Folks
choir company was one of the best
ever heard here. Their music and
songs were of the kind that all enjoy.

Hon. L. R. Robinson

Then at 4:30 this afternoon, after
the echo of the choir songs had died
away, there came upon the scene Hon.
Leland Rex Robinson, an adjunct of
the noted Columbia University in
New York city, and he held hun-
dreds spellbound with his wonderful
knowledge of diplomatic conditions.

Wesleyan Mission In Port Au Prince Attacked By Mob

Admiral Caperton Retains Con-
trol of City - French
Land Marines

(Associated Press)

Washington, Aug. 2.—The Wesley-
an Mission at Port Au Prince, Hayti,
was attacked Saturday night by a
mob who attempted to seize a man
who had murdered a prisoner in the
jail, who had been secreted at the mis-
sion. Admiral Caperton reported that
the city was controlled without diffi-
culty.

The French authorities have re-
quested and been given permission by
the United States to land marines at
Port au Prince, Hayti, for the protec-
tion of the French legation in that
city, where Admiral Caperton is in
control.

U. S. Controls Affairs.

This attitude of France shows that
she at least regards the United States
as in unquestioned control of affairs
in Hayti. In the opinion of officials
it shows also that, after the landing
of marines by Admiral Caperton, the
United States must be regarded by
foreign nations as fully responsible
for eventualities. The United States
will thus take care of not only Eng-
lish and French but German, Austrian
and other interests.

It was stated that the danger in
the city is regarded as increasing. It
is expected by navy officials that as
Admiral Caperton has cabled that
more marines "might be needed," the
department will at a moment's notice
send a thousand marines as reinforce-
ments from Philadelphia either by
the Hancock or by the North Dakota
or by both.

U. S. Force Is Small.

Navy officials say the situation may
be made critical for the 400 marines
in Port au Prince at any moment.
They estimate the population at about
60,000. There are therefore about 12,
000 men capable of bearing arms in
the city and suburbs.

PLOW CO. BENEFITED BY DEMONSTRATIONS

GRAND DETOUR CO. HAS A LIFE
GANG MACHINE THAT IS
SURE WINNER.

SHOWN AT CHAMPAIGN FIELD

At the experiment station of the
state agricultural college at Cham-
paign this week a demonstration of
the latest machinery for tilling the
soil is being held. The tractor is sup-
planting the horse in plowing and in-
stead of single plows they are being
made in gangs of from two to eight.
A man can have under cultivation
larger tracts of land because of the
newer machines. The demonstration
of modern machines is an annual af-
fair in the west and middle west and
many farmers from all sections of the
country attend to acquaint them-
selves with modern methods of farm-
ing. Week before last such a demon-
stration was held in Hutchinson, Kan-
sas, last week in Oklahoma, this
week at Champaign and next week at
Freemont, Neb.

Perhaps one type of machine that
is attracting more attention than any
other is the tractor and gang plow.
The Grand Detour Plow company of
this city has within a few months put
upon the market an automatic lift
two gang plow which promises to sur-
pass similar plows. This plow was
demonstrated at Hutchinson and in
Oklahoma and it was the one big
thing. As a result a number of farm-
ers in the southwest have placed or-
ders for the plows. The local company
has shipped two cars in the past week
and has less than a car in the local
warehouses and with the arrival of
special stock for the plow in the next
few days it will be necessary to re-
open the shops in order to supply the

CITY OFFICIALS VISIT REGIMENT AT CAMP TODAY

WELCOME SIXTH INFANTRY AND
INVITE OFFICERS TO
RECEPTION.

GOVERNORS DAY IS FRIDAY

Regiment Will Be Reviewed By State
Officials—Many Visitors
Sunday.

The Sixth regiment of the Illinois
National Guard, the last of the state
militia to occupy Camp Dunne "this
year," arrived at the camp Sunday,
and this morning the orders for the
school of instruction were taken up.
The regiment, under command of
Col. W. F. Lawrie, will be given a
thorough work-out during the week,
the orders for the officers keeping
them especially busy. The instruction
will be as far as possible in maneu-
vers under conditions of warfare.

Officers Welcomed.

This afternoon Mayor Henry
Schmidt and other city officials, Pres-
ident Brinton and Secretary Pitcher
of the Dixon Chamber of Commerce
visited the camp to welcome Colonel
Lawrie, his staff and the regiment,
and to extend them invitations to a
public reception which will probably
be held at the Elks' club Thursday ev-
ening. An effort is also being made by
the Dixon men to secure the Sixth
Regiment band for a down town con-
cert on the same evening.

Many Sunday Visitors.

Many people from Dixon and vicini-
ty visited the camp Sunday and par-
ticipated in the chapel exercises con-
ducted by Capt. John Ferris, who has
been chaplain of the regiment since
before the Spanish-American war.
The chaplain's sermon was a master-
ful effort.

Governor's Day Friday.

Friday will be Governor's Day at
the camp, at which time Lieut. Gov.
O'Hara and the Adjutant General's
staff will review the troops. This re-
view will probably be held at 4
o'clock Friday afternoon and the pub-
lic is invited to witness it.

Building Road.

A detail under command to Lieut.
C. G. Preston of Co. G, Dixon, this
morning started work on the road
leading to the camp. Crushed stone is
to be hauled into the low places and
a passable road will result.

NEGRO CONFESSES TO MURDER

Joe Deberry Admits Killing Woman
With Axe, Police Say.

(Associated Press)

Murphysboro, Ill., Aug. 2.—Joe De-
berry, the negro who is under arrest
at Harrisburg for the murder of Mrs.
Joseph Martin, has confessed, accord-
ing to the police.

Harrisburg, Ill., Aug. 2.—Fear for
the life of Joe Deberry, under arrest
here on the charge of having hacked
Mrs. James H. Martin to death in her
home at Murphysboro, Ill., were re-
newed when reports reached the coun-
ty officers that a new mob was being
formed in a nearby town with the
avowed intention of coming to Har-
risburg to lynch the negro.

Deberry is being closely guarded
and extra guards have been added to
the sheriffs force. Deberry learned of
the reported plans to hang him and
begged the officers to protect him.
He steadfastly maintains he is not
guilty of the atrocious murder and
issued a lengthy statement in an en-
deavor to disprove the circumstantial
evidence connecting him with the
crime.

ABOARD THE SHERIFFS LAUNCH

Chief and Deputy Pulled Ashore By
Good Samaritan

Shortly after 1 o'clock this after-
noon Sheriff R. R. Phillips and De-
puty Frank Schoenholz started out
for a trip up the river in the former's
motor boat. When out in the stream
a short distance from shore they
found that the engine would not
work right, and instead of going
ahead they drifted down toward the
dam and the cable stretched across
the stream stopped them. They had
to be pulled ashore by another
launch.

Vest Pocket Essays

A postage stamp is a beautiful little steel engraving which would sell for \$1,000 if there were no more extant.

The mission of the postage stamp is to chaperon a letter from hither to yon and explain to everyone en route that the sender has paid the freight. Like most useful things it was invented late in history. A hundred years ago there were no postage stamps and it was as hard to send a letter as it is today to look up a fifty-mile branch line.

The postage stamp was invented in the forties of the last century. The first specimens were very crude and had to be stuck on with glue. Now, however, a stamp is a work of art and many small countries give themselves a treat by having new and elaborate sets designed every year.

For many years some of the Central American republics made a great deal of money by issuing handsome

and elaborate sets of postage stamps annually and selling bales of them to stamp dealers who retailed them to the perspiring collector who was attempting to keep up with the postage stamp production.

A postage stamp is also a miniature hall of fame. Very few American citizens have been great enough to get onto an American postage stamp and those who have done so should feel justly proud. We should so live that fifty years after we are dead a bright-haired maiden with eyes of blue will have to buy a picture of us and kiss us damply on the back of the neck before she can send a letter to some earnest young hero in the next town.

The most popular American postage stamp costs two cents and is harder to buy than a cheap automobile. When we see long lines of people standing before a post-office window waiting for a clerk to retail dignity and two cent stamps with all the nimbleness of a brass statue we do not feel so confident about Uncle Sam's preparedness for war.

If he is as awkward in war as he is in the retail stamp business he will not get very far toward glory in the next misunderstanding.

AUTO DRIVERS PAY LITTLE HEED TO LAW

SPEEDING AND IMPROPERLY LIGHTED CARS CAUSING COMPLAINTS.

The increasing number of automobiles makes it necessary that the traffic laws of state and city be strictly enforced. Many drivers become careless and have little regard for the safety of others. With the several miles of brick pavements in the city there are many drivers who speed machines on West Third street, North Crawford avenue and East Seventh street. Complaints are made daily to the officers.

Another section of the automobile law is being constantly violated by drivers not having tail lights burning as well as allowing dark machines to stand at the side of the street. Last night about 8:30 one machine went down Third street without a sign of a light while others passed with the tail light out.

There is but one motorcycle policeman to look after all sections of the city and the auto drivers watch his movements closely. Policemen on their beats could often secure the number of machines and by keeping constantly after the violators the dangerous practice would be greatly diminished.

PROGRESSIVES WILL NOMINATE TICKETS

Continued from Page 1.

William Howard Taft, including the Payne-Aldrich tariff bill.

"The democratic leadership likewise will point with pride to the equally lamentable Simmons-Underwood tariff bill, and against a Bryan insurrection of the first magnitude, will cancel the one term presidential pledge and other Bryan propaganda; and the progressives will reiterate and re-emphasize their Chicago platform of 1912. The platform remains the most nearly perfect utterance of the principles of Abraham Lincoln of modern times.

Ark of the Covenant

"Both in its protest against the inroads of privilege fattening on an era of gross materialism and in its practical program of concrete economic remedies, the progressive platform has become to hundreds of thousands of aggressive Americans the ark of the covenant and there is not a township anywhere, without its group of Gittites devoted wholly and solely to its preservation.

"The progressives have the right plan for the tariff and other economic issues, including the trust problem. The democratic leadership, after two and a half years' trial has signally failed in solving the nation's economic questions. Its tariff law, slammed together under the old log-rolling leadership, is utterly unproductive of any of the results previously claimed for it. Its trust legislation flounders, its attempts at development of American ocean going craft have fizzled. That this is the judgement of the voter is amply evidenced by the tremendous anti-dem-

ocratic sentiment that has developed at the polls at virtually all elections the last two years. At many of these elections the voter cast a republican ballot because he believed that the republican leadership had learned its lesson and would hereafter take the progressive.

"But now the voters know for a certainty that when the republican leadership has been restored to power, it has shown more, not less, reactionary tendencies, as is notably evidenced by the actions of the legislatures in New York, Ohio, and Massachusetts. Hand in hand with the progressive proposition to encompass social and industrial justice, goes the necessity of solving the great economic problems of the country, not on the basis of political advantage, of which practice both the old parties are infamously guilty, but on the basis of service to society.

"Everywhere I found these progressives who made the fight of 1912 with that idea uppermost, eager now to continue the fight. Wherever they had a chance to make good, they have done so.

"The spectacle of republican reaction in New York and Ohio, in contrast to progressive achievement in California under Governor Johnson, is a dramatic portrayal of the need of the new strong patriotic party of public service. Therefore the progressives will go on with its fight straight out and flat-footed."

CZAR PRAISES HIS SOLDIERS

Urges Russians to New Sacrifices for Terminating the War.

Petrograd, Aug. 2.—Upon the occasion of the anniversary of the declaration of war, the czar issued an order to the army and navy saying that in spite of the efforts of the Russian fighters which had covered their flag with glory, the enemy had not yet been broken, but that they must not lose heart but face the new sacrifices and trials necessary to restore Russia to the blessing of peace.

The czar in his message points out that painful trials often have been sent to Russia but that every time the country has emerged with new strength and power. His majesty expresses the firm belief in the successful termination of the war and asks the almighty to bless the forces of Russia.

Quit Army for Arms Plants.

EXCITING FINISH IN NINTH; DIXON WON

HOWEVER STERLING WEST ENDS CAME NEAR PULLING THE GAME.

VISITORS OVERCOME BIG LEAD

Kept Plugging Away With Score 7 to 1 Against Them—Finish Was 7 To 6.

The Sterling West Ends, who have always "out-gamed" the Dixon bunch staged another of their ninth inning rallies Sunday afternoon, and they came so near to duplicating their July 5th performance of winning in the ninth that many of the fans were near heart failure.

They were but one run to the bad, and had two men on the sacks straining to get home when Huber, who had weakened noticeably during the latter part of the game, fanned Real for the final out. It was a sure-enough Dixon-Sterling finish.

Fought Up-Hill Game.

The feature of the game was the courageous up-hill fight the visitors made. McCann, their left-hander, got away to a bad start and when the fourth inning opened the tally was 7 to 1 against the West Ends, but they kept plugging away—and the rest has been told.

The East Ends started off with a run when McGee singled and scored on Beien's three bagger. Again in the fourth the visitors accumulated another on a two-bagger by Conlon and a hit by McCann. In the seventh they got two more when Huber passed Real and Beien laid the ball over the left field fence for easy transportation around the sacks.

Then, in the eighth, Real scored on a pass and Beien's two-bagger. One more was added in the ninth, which was the exciting period of the whole game. Duffy messed Pfundstein's grounder and then Catp passed Conlon. Maynard was sent in to bat for McCann, but went out Barry to White bread, both runners advancing. McGee popped to Duffy and McCormick gave all true Dixon fans indigestion by singling through short, Pfundstein scoring. Then came Huber's work on Real, and the end. The score:

Notes of the Game.

Whitebread missed a home run by about three inches in the fourth. His bingle hit the left field fence just that distance from the top. Lightner, who was ahead of Chet on the sacks, stopped at second, otherwise the hit would have been good for two bases, anyway.

Incidentally it might be said that Whitebread shows about 'steen times as much pepper as any other one of the Home Guards. The others would do well to take example from their dandy little first sacker. The listlessness displayed by some of the Dixon players at times has a decidedly depressing effect on the fans. Everybody likes a worker.

Real had a peculiar batting record. He went to the plate six times during the afternoon, drew three walks and

fanned an equal number of times. Huber put everything he had left on the balls he served to the visitors' third sacker in the ninth and whiffed him with two on the sacks, two down and one run needed to tie. It was a fortunate ending, for Beien was next up and he had connected for a three sacker, a two bagger and a homer during the afternoon.

Beien's three safe binges netted a total of nine bases and scored four of the visitors' six runs.

PLATE ON BECKER'S COFFIN IS REMOVED

Police Deem Stur on Governor Whitman Criminal Libel.

New York, Aug. 2.—Police officers of high rank held a conference at headquarters and then on their own initiative they went to the darkened room where the body of Charles Becker, who was put to death Friday morning for the murder of Herman Rosenthal, lay in a coffin and removed from the coffin lid the small silver plate inscribed, "Charles Becker, murdered July 30, 1915, by Governor Whitman."

The opinion of the police was that the coffin plate's inscription was a criminal libel of the state's chief executive and that therefore it should be removed.

As gently as possible Inspector Faurot, so one who overheard the conversation said later, convinced Mrs. Becker that the word "murdered" on the plate might result in an action for criminal libel. At its best Mrs. Becker was made to realize the inscription was in bad taste. Mrs. Becker did not interfere then when the police officials told her that they intended to take the silver plate from the coffin lid.

The plate will be kept in case it is needed at any time as an exhibit in whatever legal action may or may not be contemplated.

Jap Cabinet Crisis Serious.

Tokio, Aug. 2.—The cabinet crisis has been greatly complicated by the opposition of the elder statesmen to Takaaki Kato, minister of foreign affairs, whose handling of the Chinese question they have severely criticized. The creation of a coalition ministry similar to that of Great Britain has been suggested.

FOUND AFTER THIRTY-SIX YEARS

Trowel Dropped Down Chimney at McBride House Is Recovered

When the McBride property at the rear of the Elks' club was sold to Angier Wilson for his new garage, Charles McBride remembered that 36 years ago, his brother George, then but a boy, had dropped a trowel down the chimney while repairing it. This morning he asked the work men if they had found the trowel when they wrecked the building; and as a result he now has the tool.

DEMENTTOWN DOINGS

The weather man must have been informed that thousands of people in this section of the country preferred a little sunshine for the Assembly.

This is certainly an ungrateful world. As soon as a fellow dies, the relatives all rush to the newspapers and publish a card of thanks.

Diplomacy is what the orchestra leader shows when he selects the loudest pieces to play during the soup course.

Husbands, DON'T tell your wife you are not good enough for her. If you do, the first thing you know she'll be looking around to see if she can't annex someone who is.

The height of sarcasm (spring it on a friend)—Has your wife planned your vacation yet?

Incidentally the submarine mine that Bryan placed under Wilson's ship of state must have become water soaked. There has been no explosion yet.

The war is a year old Sunday and it has made Waterloo look like bush league stuff.

We're rubbing arnieky on paw Some Frenchman poked him on the jaw.

This French-American he met Upon the street car. Vain regret. Paw said he didn't see that France Could hope to have an earthly chance.

Paw bumped into a Turk one day While going into some buffet. The rug seller took offense. O'er paw's remark at his expense. That Turk-American with grace Just spread paw's nose all o'er his face.

Paw said that Russia'd been drix back.

A Russian-Yankee heard the crack And rushed at paw. When tore apart. The two got in the station car. Policemen seemed to have a grudge. Paw paid a fine before the judge.

You see, paw is the sort of man Who's proud he's an American. He's very apt to loudly brag About his land and wave his flag. The nerve of him! It is absurd. A real Yank dassent say a word.

CALLED THE GAME.

Two Foul Balls Shocked the Australian Sense of Propriety.

A game of baseball that was scheduled as a feature of the police and firemen's patriotic carnival at the agricultural show grounds came to an abrupt and dramatic conclusion almost before it was started. It was a match game, America versus Australia.

In America's second inning a player detected a fast ball straight for the densest portion of the crowd, and a scream was heard. The ambulance men rushed to the spot and found that a woman had been struck on the head by the ball, but was not seriously injured.

Without waiting to see if any damage had been done the players coolly procured another ball and continued the game just as if nothing out of the ordinary had happened. A few moments later this ball was also deflected to the upper story of the pavilion, striking a man on the shoulder.

At this Mr. Flowers, the minister for health, who was present, rushed out on to the ground and called out, "Stop this silly game!"

The players promptly obeyed his orders, and play ceased.—Sydney (Australia) Herald.

The City.

Cities are made, not born. No two cities are alike. The sum of one city is never equal to all the parts of another. Once a city, not always a city; sometimes only a dust heap. A city is made up of a part of the country filled with inhabitants. It consists of houses, streets and debts. No city is complete without a hospital and a franchise plant. The hospital is used to shelter its victims and to provide its surgeons with plenty of working material. The franchise plant enables it to support politicians. A city without politicians would be like a steam laundry without any steam.

Cities are an antidote for farms. Up to date, however, no cure has been found for the antidote.—Life.

The Stuart Penny.

A pamphlet published in 1677, entitled "The Worth of a Penny, or a Caution to Keep Money, With the Causes of the Scarcity and Misery of the Want Thereof In These Hard and Merciless Times," contains a list of articles obtainable for a penny in the days of Charles II. These include "a dish of coffee to quicken your stomach and refresh your spirits," "a fair cucumber" and "portions of such commodities as nuts, vinegar, grapes, cake, onions and oatmeal." The catalogue of penny-worths obtainable at an apothecary's is a lengthy one and includes "lettuce to make you sleep, nithridate to make you sweat and aniseed, which may save your life in a fainting or swoond."—London Mirror.

Odd Name Oddly Won.

The inn known as the "Same Yet," at Prestwich, has a curious history, which Mr. Hackwood relates: "The house originally bore the 'Seven Stars,' but many years ago it became necessary to have its faded sign repainted. When the painter asked the landlord what he was to put on the board he received the answer, 'The same yet.' And the man took him at his word."—London News.

Certainly Foolish.

We never heard of a man who tried to free himself of a manslaughter charge by pleading guilty to murder, but an up state man tried to prove he wasn't crazy the other day by claiming he was in love.—Milwaukee Journal.

SHERMAN THE ONLY POSSIBILITY.

The Chicago Tribune, in a sort of left-handed compliment to Senator L. Y. Sherman, prints the following editorial:

If Illinois is to present a favorite son to the republican national convention it must be apparent to any one who will take an instant's reasonable view of the situation that there is only one possible candidate in this state. He is Senator Lawrence Y. Sherman. By the simple processes of elimination for good cause of one sort or another every other mentionable republican goes out and Sherman alone remains.

We do not say that Lawrence Y. Sherman is to be or has great chances of being president of the United States, but he is, we think, the only man in Illinois who need be mentioned in any seriousness. A presidential candidacy is not a top growth. It must have roots. Politics of a national character do not raise annuals. It raises perennials. The nation must have at least a sense of the fitness of a man for the highest office and it gets that sense by some process of political psychology. It is not by reasoning and it is not by information, because both are confused, especially in a campaign, but it is a remarkably sound process nevertheless.

One has only to compare what occasionally gets into the vice presidential office with what material is chosen for president to understand how the subconscious intelligence if not conscious intelligence of the nation works when the chief place is to be filled. The electorate has savvy if not definite information. Savvy is personal information and intelligence plus national consciousness, and it works.

There is no other than Sherman in Illinois who is worth the mention before the next republican national convention. He has had long service and has talent and character. He is known. He is not ephemeral. The savvy of the nation might recognize him. It might not. But it will not recognize any other person in Illinois, in our opinion. Sherman has lived before the public. He has been given the confidence of this state on numerous occasions.

We do not know what may happen to his candidacy if it exists and if it be presented, but we have a definite idea of what will happen to any other originating in Illinois.

OILING COUNTRY ROADS.

Considerable of the road to Grand Detour and also on the Daysville road has been oiled by the highway commission. The improvement is marked and the smooth, dustless highways will be popular drives this summer. We congratulate the highway commission. Keep the good work up. An oiled road to Lowell Park would be quite acceptable.

The Galena avenue bridge needs a dust settler of some description. The dust and filth that covers everyone crossing the bridge is a needless discomfort.

Don't you dare object to the hot sun. You ought to be made to sit out in it all day for the way you've cursed the poor weather man for not giving us sunshine.

The Assembly is drawing good crowds and the crowds are getting their money's worth.

Ah, the first of the month comes 'round again, with its bills and other nice little things.

THE COLONEL TALKS POLITICS.

Colonel Roosevelt visited Chicago yesterday and spent most of his time at the Lincoln Park Zoo. Cy De Vry, the animal keeper at the park, says the colonel had a very mysterious conversation of whisperings with the Bull Moose they have out at the zoo, and that as usual, the colonel did most of the talking, the Bull Moose looking him reflectively in the eye and nodding his head once in a while when the colonel seemed to strike on some particularly good point. They probably were talking about Bryan. Everybody roasts poor Bryan.

Mr. Redfield is another democrat who is demonstrating to Mr. Wilson what that White man's burden is. Mr. Wilson surely has an awful load to carry even without the democratic party, and democratic office holders, past and present, are living up to their usual reputations and helping him lots—oh yes, lots.

HEAD OF BANDITS IS SENT TO PRISON

HENRY STARR PLEADED GUILTY TO BANK ROBBERY—HAS NOTED CAREER.

(Associated Press)

Chandler, Okla., Aug. 2.—Henry Starr, the last of the Starr gang of bandits charged with the robbery of two banks at Stroud, Okla., into which he led his gang last March and took an aggregate of \$5,000, pleaded guilty today and was sentenced to 25 years in the penitentiary.

Starr was wanted after the robbery and four of his men were captured and are now awaiting trial. His life has been full of action. He has made rich hauls in bank robberies, engaged in looting trains, battled possses seeking to arrest him, aided in quelling a jail outbreak and unsuccessfully tried, following a pardon in 1903 by President Roosevelt, to reform.

CASHIER AND GIRL MISSING

And What Is More to the Bank's Interest \$11,000 Is Gone.

Englewood, N. J., Aug. 2.—Abraham Cornelius Jr., for many years cashier of the Citizens National bank, a married man with a family, Miss Loretta Adelgaia, an attractive young stenographer, formerly employed in the bank and \$11,000 in cash from the bank's vault have been missing since Wednesday afternoon.

There is no tangible evidence to show that Cornelius and the girl, for whom he is said to have had an infatuation for several years, have disappeared together, but Clinton H. Blake, president of the bank and the girl's heart broken mother, a widow, attach important significance to the fact that each vanished from Englewood about the same time.

HAVE DIFFICULTY IN SUPPLYING TEACHERS

EXACTING REQUIREMENTS AT STATE BOARD RESULTS IN SHORTAGE.

There promises to be a scarcity of teachers the coming school year over the state. County Superintendent L. W. Miller has received inquiries from Whiteside and Ogle counties for instructors but the supply in Lee county is limited and it is going to be hard to fill schools where the compensation is low. The requirements placed on grade teachers by the state examining board are strict and many young ladies lack confidence in themselves to take the examination. Unless there is modification in the grades set many will not attempt to fit themselves for teachers.

GERMAN MEETING IS PROBED

U. S. Officials Seize Document Signed at Stanwood, Iowa.

Cedar Rapids, Ia., Aug. 2.—Following an anti-war meeting which was held in the Lutheran church in the little German village of Stanwood, Ia., a deputy United States marshal visited the town and made an investigation of the rumor that seditious action was taken by the congregation. The deputy seized a document which had been signed by Pastor Fechter of the church and practically all the men in the congregation. This document, the Stanwood people assert, was issued under the direction of the Peace society in Boston.

NO BORDER FOR U. S. FLAG

Fort Dodge, Iowa, Peace Society Trimmed Banner With White.

Des Moines, Ia., Aug. 2.—The recent display of an American flag with a white border around it, by a society at Fort Dodge, Ia., promoting world peace, caused Attorney General Cosson to issue instructions to the Fort Dodge authorities to take action if the display is repeated.

Attorney General Cosson instructed the Fort Dodge authorities to invoke the law against mutilation of the flag, if it became necessary.

The Alarm Clock Cured.

A writer in the Farm and Fireside declares that the secret cure for broody hens is an alarm clock. He says:

"Some years ago I was endeavoring to break up a sitting hen, but my efforts were in vain. Old Yaller continued to sit. Finally I took a small alarm clock and set it so it would go off in a few minutes. I placed it in one corner of her nest and watched. It went off. And so did Old Yaller. She left the nest and stood dazed for one horrified instant, and then, with one shrill squawk, she ran out of the henhouse and flew over the park fence and began to hunt for bugs in the grass."

"She not only stopped sitting, but she stopped clucking, and in a short time began to lay. I have since tried this method on more than 100 broody hens with complete success."

He Saw a Great Light.

Wrecks on the coast of Cornwall, England, were once a source of revenue to the natives. The Cornish folk were great smugglers too. The Rev. R. S. Hawker had in his service as man of all work old Tristram Pontifex, the last of the year this notable confession: "Well, sir, I do think, when I come to look back and to consider what lives we used to live—drunk all night and idle all day, cursing, swearing, fighting, gambling, lying and always prepared to shoot the ganger—I do really believe, sir, we surely was in sin!"—London Express.

ROCK RIVER ASSEMBLY

Continued from Page 11

He knows "Uncle Sam" as few men know him and his style of telling what he knows, pleases everyone and creates within his hearers a greater and stronger desire within his hearers to get better acquainted with Uncle Sam. Mr. Robinson is a student of political economy. He is a critical student of international questions and is, therefore, well qualified to talk upon such questions.

Mr. Robinson will be with the Assembly Tuesday and Wednesday and each day at 4:30 will deliver a lecture on several of the burning questions of today.

Bell's Lecture Good

Bishop William M. Bell of Los Angeles, delivered one of the most interesting lectures ever listened to at the Assembly, Sunday. He took for his subject, "America—Whence, Where, Whither." He discussed the subject from three angles—Freedom of conscience in matters of religion principle of Democracy in matters of politics, and economic independence.

Hundreds attended the Assembly on Sunday and in the evening when the Cathedral Choir gave its closing concert, sacred in character, the auditorium was well filled.

Every number of the program thus far of the session has made a big hit with the patrons. Saturday afternoon came Howard of the East with a burning message of "motherhood." Sunday afternoon came the divine from the Pacific coasts with a message of Americanism and sound doctrines for all Americans. And in between these two splendid numbers of the program came the Cathedral Choir from Illinois' great metropolis, with songs and music that thrilled, and caused men and women to believe that after all there was something real in the higher standard of music.

Grounds Well Policed

Assembly park is well policed and an effort will be made to preserve the very best of order during the session. Theo. Trough is the man who has this work in hand and he will see that nothing is overlooked to assure success in this line. An order was issued by Mr. Trough not to permit automobiles to drive around the auditorium while an entertainment is in progress. Last year this caused considerable trouble and it will not be permitted this session. Automobiles will drive over the avenues near the auditorium during the lectures and concerts.

Linderman Busy Man

C. W. Linderman, in whose hands the campers deal, was one of the busy men all day. There are a number of tents to place yet and this work is being rushed with all the speed possible. There are now on the ground 1125 tents, filled with campers, hoping that the weather man will sleep on the job for the next two weeks.

Woodard on Ground

A. Woodard of Clinton, Wis., arrived Friday afternoon and is located at the hotel, a guest of his close personal friend, Tom Young. Mr. Woodard has not missed a session of the Assembly for 16 years. He said this morning that the Assembly would hardly be a big success unless he put in his appearance. He says he is better pleased with every this year than in previous years. He thinks Dixon one of the best cities in this section of the country.

Sol Beard, of Polo, another staunch and tried friend of the Assembly, arrived here Saturday forenoon and started immediately to boost for the success of the Assembly.

Hotel Busy

Lanlord Tom Young, Miss Young, and their force of assistants were busy all day taking care of the many guests. Meals will again be served on the cafeteria plan. The hotel was filled today. This building will be one of the most popular during the Assembly.

Rev. Altman Pleased

Rev. F. D. Altman, chairman of the program committee was happy to day and made the campers cheerful to get in close touch with him. The weather delighted the Doctor so much that he could not refrain from expressing himself on this topic.

Secretary Rasch, while an exceedingly busy man, was also cheerful over weather conditions.

Tonight's Program

At 7:03 o'clock this evening the Old Folks' Choir will sing a musical prelude and promptly after Noah Belharz, reader and impersonator, one of the best artists of his kind in the country, will give a program that will be pleasing to all.

Moving Pictures Good

The moving pictures this session are much better than a year ago and they get better each evening. Amos G. Helms, who has charge of the pictures, will give a splendid program of pictures each evening during the entire session. His pictures tonight

are as follows: "For His Daughter's Sake," "Prospective Heirs."

Choir Pleases

Ye Old Folks' Choir Concert Co., the musical organization which will stay tomorrow, pleased a large audience this afternoon. Their songs are refreshing and wholesome.

The members of the company have charming personalities; their voices are fine, well balanced, and highly cultivated; their costumes elegant and appropriate and the selections satisfy audiences of varied tastes. The personnel of the company follows—

Soprano—Luthera Stratton
Contralto—Florence Herrom
Tenor—Ernest Page
Baritone—William Arkwell
Reader and Accompanist—Ruth Garland.

Their programs are divided into two parts: First part—Opera, Oratorio, semi-popular numbers, and readings.

Second part—The songs you love, sung in costume with action.

This excellent choir will sing a full concert tomorrow afternoon and a prelude Tuesday evening.

Assembly Notes

Miss Mary Morrison and the Misses Dement entertained Sunday evening for Miss Erma Drew, at the Mrs. L. D. Dement Brown bungalow, which, this year, is located on Western avenue, near the hotel.

John Davies entertained a party of friends last evening with a house boat party at Lowell park. The Mrs. Dement guests were included in the party.

Mr. and Mrs. S. E. Sprecher of Leaf River are here, guests at the hotel. They have attended the Assembly from the time it was first on the Charter's farm.

Mr. and Mrs. George Reedy and family of Mt. Carroll are located at the same old place and entertained many of their friends Sunday afternoon.

Among the many guests at the hotel are—Nettie F. Crane, Lena; Mrs. L. N. Deutsch, Sublette; Miss Margaret Anderson, Rock Island; Mrs. Alice Felker, Amboy; Mr. and Mrs. C. P. Miller, Amboy; Mrs. W. E. Aker, Polo.

H. C. Hilbish of Winthrop Harbor, Ill., is here for a few days. Mr. Hilbish has been elected principal of the Lee Center school and will move his family to Lee county this fall.

Glad Hand Club

The Glad Hand club of the Lutheran church of Mt. Morris motored to the Assembly grounds Sunday morning, accompanied by some of their invited friends. A short side trip was made to Lowell park on the way down, arriving at the Assembly at noon. An abundance of lunch was brought along, which was enjoyed in one large "spread" in the shade of the park. Following the lecture a group picture was taken before "Sans Souci" tent, the headquarters of Rev. and Mrs. Zimmerman, of Mt. Morris.

Woodard Good Driver

A. Woodard did not reach here on Friday, but he arrived here Thursday afternoon at 5:45 o'clock, just ten hours after leaving Clinton, Wis. Now the best part of this is that Mr. Woodard is over 70 years of age, but he drove his little Ford car here without a mishap. His friends at Clinton doubted his being able to get through at all, but he demonstrated to them that he could and did, after driving several hours through a hard rain and exceedingly muddy roads.

From Tiskilwa

Mr. and Mrs. E. B. Anthony and Mr. and Mrs. George C. Kellogg of Tiskilwa, Ill., motored to Dixon yesterday and are staying at the Assembly park hotel while enjoying the chautauqua. They will return to Tiskilwa Wednesday.

Bailey Here

Secretary Elwood T. Bailey of the Y. M. C. A. who has been on lecturing tour, returned to Dixon Saturday and today reported to the Assem-

bled management for work. Secretary Bailey has charge of the Boys' club during the Assembly, for the session and this morning began his duties.

Miss Alta Bennett Vail, who has the girls of the Assembly in charge for the session, began her work this morning.

Miss Crane Returns

Miss Nettie F. Crane of Lena, who came here at the opening of the session to take charge of the Carthage tent, returned to her home today. Miss Crane will return again August 11 for the big picnic of Carthage college.

Mission School

Quite a large audience attended the opening meeting of the Interdenominational Mission school, which this year is in charge of Mrs. Hallie L. Hill of New York city. Mrs. Hill's lecture this morning was based upon the Home Mission Text book for 1916, "Home Missions in Action."

The speaker in charge of the meeting is a convincing speaker and soon has her auditors believing that she really knows much about mission work.

She talked at some length on the subject of "A National Force." She took her auditors back to the early history of this nation and reviewed very carefully the history of the country up through the years to the present time.

At 4:30 o'clock this afternoon Mrs. Hill discussed the subject, "A Reclaiming Force." This subject was also well handled.

Bible Conference

Prof. J. L. Neve, of Springfield, O., a professor in the Theological seminary at that place, opened the seventh annual Bible conference this morning with an address on "The Lutheran Church and Its Relations with Surrounding Denominations."

Prof. Neve fills the place of Rev. H. L. Yarger, D. D., who is confined in a sanitarium at St. Joseph, Mich.

Prof. Neve demonstrated to his audience that he is a profound Bible student and an entertaining speaker, as well as a fluent writer on religious themes. He gave an interesting analysis of the various denominations and declared that the Lutheran church stands for the most perfect form of religion. His address was closely followed by his auditors, all feeling that the hour was indeed too short in this one instance.

Prof. Neve will address the conference again tomorrow morning at 9 o'clock on the subject of the "History of the General Synod."

Clay Addresses Conference

At 1 o'clock this forenoon Rev. Albert T. Clay, Ph. D., professor of Archaeology Institute of America, addressed the conference on the subject of "The Old Testament in the Light of the Latest Discoveries." The address was of a thoroughly scientific nature; exceedingly instructive and quite interesting.

This is Dr. Clay's first visit to Rock River Assembly, and it is to be hoped, will not be the last. He has proven himself, the opening day of the conference, to be necessary as far as making the Bible conference a very great success.

Dr. Clay will address the conference again Tuesday forenoon on the subject of "Are the Patriarchs Historical?" He should have a full house.

Tuesday evening at 8 o'clock in the auditorium Dr. Clay will deliver his famous illustrated lecture, "Recent Discoveries in Babylonia." This lecture should be heard by enough people to completely fill the large auditorium.

The demonstration at Champaign has been widely advertised and it is expected that farmers from all over this section will be present. The exhibit of tractors and gang plows is very large. The latter range from the two to eight gang. The Grand Detour company will be represented at the demonstration by several men from the local factory. Among those now there are Bradford Brinton, Factory Superintendent R. C. Caughey, Deprattmental Foreman Chas. Ruef, John Bennett and John Hill. President Wm. B. Brinton will likely go down later in the week.

Miss Clark has accepted a position in the Polo school for the coming year under Superintendent Anderson, formerly principal in the Dixon high school.

ASKED TO LOCATE MISSING BOY

Police Are Searching for 12-Year-Old Clarence Widener.

The police were appealed to this morning to locate 12-year-old Clarence Widener, who has been living with his grandmother, Mrs. S. E. Hanely of Hemlock avenue. The boy came down town with his grandmother last evening and she gave him some money to attend the moving picture show and that is the last she has seen of him. It is thought he may have gone to Camp Dunne, as he knows several members of Co. G in camp there this week.

MRS. MARY CLANCY DIED SUNDAY EVE.

PASSED AWAY AT DAUGHTER'S HOME—RESULT OF RECENT FALL

Mrs. Mary Clancy died Sunday evening at 9:30 o'clock at the home of her daughter, Mrs. Catherine Collinsgrove, 904 Ottawa avenue. She was married in New York in 1856, coming to Dixon soon after her wedding and this city has since been her home. She is survived by one son, Peter Blackburn of Chicago, and three daughters, Mesdames Ellen Fundas of Chicago; Edward O'Connell and Catherine Collinsgrove of this city. Funeral services will be held at her daughter's home at 9:30 o'clock Wednesday morning and at 10 o'clock at St. Patrick's Catholic church, Father Foley officiating.

We have lost our darling mother. She has bid us all adieu. She has gone to live in Heaven. And her form is lost to view. Oh! That darling mother, how we loved her.

TRUSDELL FUNERAL VERY IMPRESSIVE

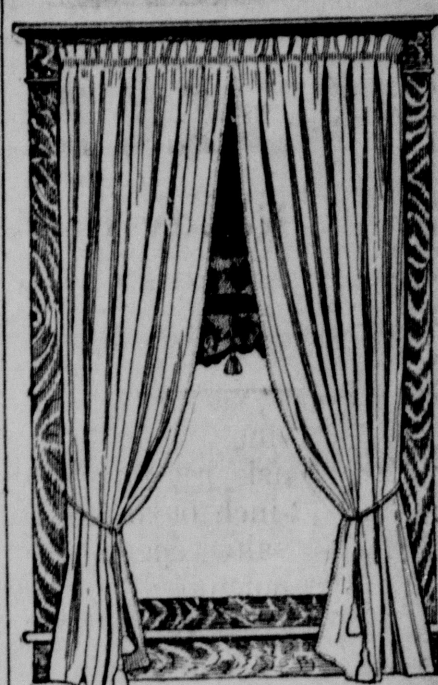

REV. WHITCOMBE READ BEAUTIFUL EPISCOPALIAN SERVICE AND PRAYERS

The funeral of A. K. Trusdell, which was held at his late home at 11 o'clock this morning, was one of the most impressive ever held in Dixon and was also very largely attended. Because of his absence in Canada it was impossible for Rev. John Sage, formerly rector St. Luke's church, to come to Dixon and accordingly Rev. A. B. Whitcombe officiated, the beautiful Episcopalian service being used. The Gladstone, Newman and McLaren prayers were read. The casket was covered with two enormous sprays of American beauty roses and lilies of the valley, the only flowers. Those in attendance at the funeral from out of town were: Mrs. H. B. Fuller of Watertown, S. D.; Mrs. Grisdale of Minneapolis; John L. Orvis of Minneapolis; Miss Julia Orvis of Boston; Mrs. Adelaide Trusdell Chase and son Charles of Champaign and a nephew from New Jersey.

The Mescal Button.
Peyote, known commercially as mescal, is a species of cactus grown in northern Mexico. The mescal button, about one and a half inches in diameter, is to the uninitiated disagreeable in both odor and taste. Although a tea is made from it, it is more generally eaten in its dry state, and has hence been called "dry whiskey." The effect upon the user is different from that of any other drug. There is trembling and nausea, a sense of dual existence, in some cases a delirium somewhat similar to delirium tremens, and an overestimation of time—minutes becoming hours and hours long periods of time. The most extraordinary effect, however, is the visual hallucinations and the effect upon the hearing. The habitue enjoys "a regular kaleidoscopic play of most wonderful colors, an incessant flow of visions of infinite beauty, grandeur and variety, while each note produced on the piano becomes a center of a medley of other notes which appear to be surrounded by a halo of color, pulsating to the music."—Leslie's.

The Difference.
Herman Frasch, chief chemist of the Standard Oil company, who died worth \$5,000,000, made many millions for his employers by his utilization of waste.

In an interview in New York, discussing the discovery that turned coal tar from a waste to a highly valuable byproduct, Mr. Frasch once said to a reporter:

"That one little change, that little chemical change, did it all. There is never more than a tiny difference, you know, between a waste and a byproduct, between wealth and poverty, between success and failure.

"Look, for example, into some great business office. Here is a haggard man in his shirt sleeves on a high stool working for dear life—he checks the cash. Then, in a little glass office all by himself, look at that other frock coated man leaning back in a tufted green leather armchair, smoking a cigar and reading the paper—he cashes the checks."—Boston Record.

Excited Over Clam, Boy Drowns.
Aurora, Ill., July 28.—Attracted to the river by the report that some boy had found a clam shell containing a pearl worth \$1,500, Walter Wooselt, aged eleven years, went into deep water in search of choice shells, lost his footing and drowned before help could reach him.

STEADFAST CONFIDENCE

The Following Statement Should Form Conclusive Proof of Merit to Every Dixon Reader.

Could stronger proof of the merit of any remedy be desired than the statements of grateful endorser who say their confidence has been undiminished by lapse of time? These are the kind of statements that are appearing constantly in your local papers for Doan's Kidney Pills. They are twice-told and confirmed with new enthusiasm. Can any reader doubt the following. It's from a Dixon resident:

B. A. Worley, blacksmith, Peoria Ave., Dixon, says: "The action of my kidneys was irregular and annoying and my back ached. After using Doan's Kidney Pills, the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

Over two two years later, Mr. Worley said: "Whenever my back gets lame and sore and needs a kidney medicine, I use Doan's Kidney Pills, and they give me relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Worley had. Foster-Milburn Co., Props., Buffalo, N. Y.

The Japs Work All the Time.

Literally the Japanese work all the time. It is not at all uncommon to find Japanese men and women at work in their shops at 2, 3 and 4 o'clock in the morning. They must work like this or starve. They live directly in the rear of their places of business. Their entire household equipment comprises a few mats, a few cushions and a little tableware. They go at their job—whether it consists of making clogs or inlaid cuff buttons, and work and work until they are exhausted. Then they sleep a little and go back to work. It does not take a Japanese ten minutes to eat his meal of rice and fish. He has his festivals, of course, and a good many of them, but he works the rest of the time, and in many households it must be a special and personal festival, connected with some individual or family gods, to lure him from his occupation. He needs the money.—Samuel G. Blythe in Saturday Evening Post.

Mars and the Hand.

There is a mount in the hands of persons who are said to be impressed more in music by marches of warlike character than anything else. It is a soft, cushion-like mount within the center of the hand proper, but is generally developed toward the outer edge of the palm.

These persons are said to be under the influence of Mars and to have inherited warlike tendencies, but it more than usually shows an ordinary amount of courage that is possessed by most persons. These are the ones who would be thrilled by the "Marsellaise," the Russian national hymn, the "Watch on the Rhine" or the "Star Spangled Banner." Subjects of Mars seldom become proficient musicians or successful singers, unless the other indications in their hands show other musical fancies.—Buffalo News.

Official Statement From Berlin Tells of Dislodging Foe From Many Positions—Czar's Troops Continue to Retreat on Both Sides of the Bug River.

Berlin, Aug. 2.—(Via Amsterdam.)—The capture of Cholm by the German troops in pursuit of the Russians is announced officially. The official statement tells of stubborn resistance on the part of the Russian defenders between the upper Vistula and the River Bug. The Germans captured on the eastern front during July 170,536 Russians, including 323 officers; 51 guns and 358 machine guns, according to the same statement which covers the operations between the Piltza and the Baltic and in the southeastern theater.

German Statement.

The following official statement was issued here with regard to the operations on the eastern theater of the war:

"North of the Niemen, local actions are reported. Northwest of Rowno we progressed further. Counter attacks by the enemy were repulsed. During July we captured between the Piltza and the Baltic 95,023 Russians, 41 guns, including two heavy pieces, 4 mine throwing howitzers and 230 machine guns. In the southeastern theater our troops are advancing across the Vistula. North of Ivanogrod we repulsed heavy counter attacks by the enemy. Pursuing the Russians we conquered the heights near Podzamozie capturing over a thousand prisoners. Between the upper Vistula and the Bug river, the enemy again resisted our attacks. During the day our troops ejected the enemy from his positions near Kurów, east of Novo Aleksandria, south of Leuzna, southwest of Dubienka. The enemy continued to retreat on both banks of the Bug and on the front between the Bug and south of Leuzna. We already passed through Cholm in pursuit of the enemy. In the southeastern theater the Germans captured during July 323 officers, 75,190 men, 19 guns and 128 machine guns."

NEW YORK WILL VOTE, ON WOMAN SUFFRAGE

Leaders of Both Parties Agree to Submit Question.

New York, Aug. 2.—Next November—just a little more than three months from now—the citizens of this state will vote on the question of woman suffrage.

An amendment to the constitution has been prepared which, if passed by a majority of the voters, will become a part of the new state constitution. Leaders of both parties have agreed to this much.

If the suffragists lose their fight this fall they may have a harder time in the future. A proposal is pending before the convention requiring a majority of the ballots of three-fifths of the registered voters before an amendment becomes effective.
